Subject: Ref. No. 90-5-2-1-11428

Dear Assistant Attorney General,

I am writing to you about the United States v. Global Partners LP, et al., D.J. Ref. No. 90-5-2-1-11428.

I've been a resident of South Portland for 10 years and have been concerned with the odors in the city for some time.

I've asked other residents about the odors and they just shrug and state that it's normal. In my gut I felt it couldn't be, it shouldn't be and hopefully in the future it won't be.

I am happy the EPA is stepping in but am unhappy with how long it's taken for the public to be alerted that Global Partners is and has been heavily violating the environmental standards.

I would very much like to see a third party (with no interest in the future or oil / gas) be in charge of installing systems to monitor emissions from all of the bulk oil storage tanks in our area. We must do what we can to protect the health and wellbeing of the people over the corporations.

Thank you very much for hearing my concerns.
